An old gentleman who sometimes comes to the city for a "bender" had better look out, or his name will certainly get into the papers. We intend to publish all such cases, without respect to the parties. If he does not want his name published he must steer clear of the coffee houses, as this is the last time we will comply with his urgent entreaty to omit his name from our police report.

The Baltimore and Ohio Railroad Company has declared a dividend of four per cent, on the stock of the main stem, payable on and after the 31st instant, clear of United States tax; also a dividend of five per cent, on the stock of the Washington branch for the half year ended 30th September, payable on and after the 17th instant, clear of United States tax.

The four months of this year ending with September, show a higher temperature than a corresponding four of any year since 1763, and for the same four the rain-fall has been less than half the average, and smaller than in any corresponding year since 1804. These facts are gathered at Yale College, and are therefore reliable. That this year has been the hottest that we have had for 107, and the driest that has visited us for 66 years.

The Commissioner of Internal Revenue has issued a circular, assuring, directing them to request all liquor dealers, rectifiers and other persons having distilled spirits in their possession not in bonded warehouse, to render a statement of the quantity of liquor on hand on the 15th of November showing how much brandy, gin, rum, whiskey, highwines, alcohol and fruit brandies, and distinguishing between imported and domestic spirits.

The Mayville and Lexington Railroad is doing a pretty fair business, though it is but sixteen miles long. On Tuesday it brought to Mayville three hundred and twenty-five hogs, and on Wednesday as many more. Daily large quantities of coal are shipped over the line. By the road coal is now delivered at 25 cents per bushel, a saving of three cents per bushel. The merchants of Flemingsburg are having their dry goods shipped by rail to Marshall's Depot and wagoned thence to Flemingsburg.

**Revenue Decision.**—The Commissioner of Internal Revenue decides that a liquor dealer's tax for the first twenty-five thousand dollars of his sales less special tax and not a tax on sales, and in making up that twenty-five thousand dollars he should include the sales of malt liquors and all other sales except his sales of tobacco. He also decides that the tax on malt liquors and after October 1st, 1870, was repealed by the act of July 14th, 1870, and that in rendering their monthly returns of sales, liquor dealers should hereafter be required to report only their sales of foreign and domestic distilled spirits and wines.

**Attempted Suicide.**—A man walked into the hardware store of Owens & Barkley on Friday night and purchased some percussion caps. After fitting them on a pistol he stepped out of the back door, and immediately afterwards Mr. Barkley heard a cap snap. He opened the door immediately and saw the man with the pistol to his temple in the act of cocking and firing it a second time, but Mr. Barkley seized the would be suicide before he could carry out his purpose. Fortunately for the poor wretch's soul, the first cap failed to explode upon an empty chamber of the pistol. We hope he may live to repent of his intended crime, the greatest a man can commit.

**New Drug Store.**—In an other column we publish the card of Messrs. January & Lloyd, who have recently opened a new, complete and beautiful Drug Store, in the handsome January block on the corner of Second and Sutton streets. Their stock was well selected, of the best material, is varied and comprises every article in their line of business. Mr. Lloyd possesses extensive practical experience as a pharmacist, having been for a number of years of one of the most valued assistants of the old firm of Seneca & Broderick. In their employ also is Mr. Shackelford, who thoroughly learned his business under J. J. Wood. We take pleasure in recommending the firm to public patronage.

**Agricultural Observer and Reporter.**—One of the oldest, best, and certainly one of the cheapest farmer's journals in this country is the Agricultural Observer and Reporter, published weekly at Lexington, Ky., at \$1.50 per annum in advance. It is the only Southern agricultural paper printed in the blue-grass region, which is so famous for its rich soil and splendid live stock. The get-up of a club of six subscribers will receive this valuable paper for one year gratis.

**The Knoxville, Henderson and Nashville Railroad.**—This company are laying their track from Hopkinsville north at the rate of one mile per day. They propose to reach the coal fields by the 25th of November or the 1st of December in Christian county, and the better coal mines in Hopkins county by the 15th of December. All the iron is purchased and shipped, or already delivered to complete the road in December. The work is going on bravely, and this important road to the southern portion of our State is drawing to a completion. We wish it, and all improvements in our State, the greatest success.

**Important to Distillers.**—Commissioner Delano has issued an order suspending the operation of his former order, requiring tie meters to be attached to distilleries until the first day of January, 1871. The lower House of Congress having passed a resolution almost unanimously against the meter attachment, it is almost certain that the Senate will concur before July 1st, so that the distillers of the country will be relieved from this worse than useless imposition, and such as desire to resume business, can do so now without it.

**Police News.**—On October 15th R. Manyan and Thomas Roach were drunk and disorderly and were placed in the Court Street Station House to get sober. They were then fined, Manyan \$5.00 and costs, and Roach \$3.00 and costs. Both paid.

On the 19th Johnson Walcott, from the county, imbibed too freely of Mayville whiskey, got himself put in the Station House, and when duly sober was fined \$5.00 and costs for being drunk and disorderly. Paid.

On the 31st George Walker, colored, was fined \$3.00 and costs for amusing himself by choking his wife. He paid. He enjoyed the hospitalities of the Station House for one night.

**During the Germantown Fair** James Cullen, a boy, the son of a widow in Mayville, went to get a drink when another boy attempted to take the cap from him. In the scuffle that followed young Cullen knocked down his assailant. A man standing by caught hold of Cullen, pinioned his hands behind his back and held him helpless while the other boy struck him in the forehead with a rock, crushing his skull. Some weeks afterward Dr. Shackelford performed a surgical operation on him, taking out several pieces of broken bones from the skull. The boy's mind was unhinged, and though he was afterwards well enough to come out on the street, he never recovered. On Sunday he died from the effects of his wound. The man who held him needs the attentions of a Grand Jury.

**George P. Rowell & Co.** of New York, the well known and enterprising advertising agents, have purchased the agency of John Hooper & Co., of the same city, an equally well known and reliable firm, and by the union of the two will have by far the largest and most flourishing advertising establishment in the country, and if it is as well managed in the future as in the past it cannot fail to become still more gigantic and successful. Messrs. Rowell & Co. publish the American Newspaper Directory, the most complete volume of the kind ever issued in this or any other country, and at their New York office they keep on file more than five thousand periodicals, which are always open to the free use of their patrons when in New York. Both the retiring partners of the late firm of J. Hooper & Co. are to remain with Geo. P. Rowell & Co. for some months, until their own business matters can be adjusted, after which Mr. Wayne contemplates going abroad, and Mr. John Hooper, who has been elected treasurer of the Colwells, Shaw and Willard manufacturing company, of New York, will give his attention to the introduction of the patent tin-lined lead pipe, an article of great merit, extensively manufactured and sold by that company.

**Our Fire.**—On Monday night we purchased a can of Petroleum Fluid with several lamps. The lamps were immediately filled, and the light gave entire satisfaction. On Tuesday night an accident occurred which came very near being serious. Two apprentices were in the office, one at work and the other, as he says, engaged in filling a lamp with Petrole-

um Fluid. The lamp was lighted and nearly full, according to his account, when he commenced pouring in the oil. He spilled some of the oil upon a stone upon which the lamp was placed, and then let the lighted wick fall over the spilled oil. Of course there was a flame which communicated with the oil he was pouring out, and from that to the can itself. He tried to throw the can of burning oil out of the window, but let it fall into our waste basket full of papers. For a few moments there was danger, but Sydney, a negro woman living below, ran up and threw a wet sheet over the flame which was immediately extinguished. Damage to us about \$6.00. Cause of accident pure carelessness, if, indeed, it was not the result of an experiment.

The charges against Wm. Lewis were dismissed.

**Report of the Grand Jury in relation to the Jail and the conduct of the Jailor.**—We, the Grand Jury of Mason county, now in session, would report to the Court, that we have made an examination of the public jail of the county, and have had various witnesses before us to testify in regard to the condition of the said jail building and the keeping and supervision thereof. We believe the jail building a sufficient one for the safe keeping of prisoners confined therein, provided the same is repaired and fixed in a few particulars, being at the present time insecure and has been for some time past. The outside wall needs some repairing, especially where it has given away. The wall of the jail where it has been heretofore broken and damaged should be thoroughly repaired and made perfectly safe and strong. The locks of the jail should be replaced by the best and strongest that could be had or procured for that purpose. And we now recommend the County Levy Court for the county to make the proper appropriation for that purpose; and should they neglect to do so at the proper time we recommend the next Grand Jury to indict them therefor. We further believe from the proof and facts now before us, that the present keeper, William Carr, has been too remiss and negligent in his duty. That after the first prisoners who escaped from the jail after he got possession thereof, he should have been more watchful and careful than he was, and should not have suffered two more prisoners to be together at the same time in the hall or any one of the rooms not lined with iron, as we learn he did do and permit. We are satisfied that the prisoners who made their escape from said jail had some help or assistance from without and unknown to the keeper, Mr. Carr, but how and from whom we have not been able to ascertain. We can't think that Mr. Carr, the keeper, corruptly connived at their escape in any way; but being inexperienced and having just entered upon the duties of his office, he was unadvised as to his proper diligence and duty and therefore wrongfully suffered felons confined in the jail to be together and in the open hall, of the jail, when they should have been kept separate and confined in the strong rooms or iron cells thereof. Owing to this experience, age, infirmities (or health) and his unblemished character, we only recommend in his case a proper reprimand and caution by the Court, hoping that nothing of the kind will ever occur again, while he remains in office.

We also report that we found the jail in a filthy condition, and learn that the same has been so kept and continued for several years past, which we hope and recommend may be speedily remedied and not suffered so to be again.

All of which we respectfully report to the Honorable Court for its consideration and action. This October 26th 1870.

B. A. WALLINGFORD, Foreman.

**A Card.**

**Editor Mayville Eagle.**

Permit me to say through your paper, that the statement contained in the Bulletin of this date, concerning the accident in your office on Tuesday evening is incorrect and conveys an entirely false impression as regards the cause of the accident. The statement is, that the fire was the result of carelessness and Kerosene Oil. As to the fire mentioned cause, I have nothing to say; but I state positively that there was no Kerosene Oil in use at the time at all and moreover, that such an accident could not occur with Kerosene Oil. All the Drug Houses in this city deal largely in "Kerosene" Oil and the Bulletin's article is liable to do injury to a large, important and legitimate interest in our city. I will add that I reached your office before the fire was effectually extinguished and thus my statement is made under a thorough investigation as to the cause of the accident.

**William Charles Yelverton.**

A cable dispatch from London recently announced the death of William Charles Yelverton, better known by the title of Viscount Almonro. Deceased was born in 1824. He was for a time connected with the army, holding the position of Major in the Royal Artillery. His estates in Ireland are situated in the counties of Tipperary and Mayo. Like many other Irish peers Lord Almonro lived very little on his estates. The man who succeeds the deceased to the property and title is the notorious Major Yelverton, whose infamous treatment of his wife a few short years ago is still fresh in the memories of the readers of newspapers the world over.

## THE LONDON CLUB HOUSES.

**Their Splendor and Luxury.**—Their Disposition and the Disposition of the Club House.

Club life has attained its greatest perfection in London. No city upon the continent can compare with it for the number of its club-houses, the splendor of their architecture, the brilliancy of their furniture, and standing in society of their members.

There are upwards of fifty clubs in London, in which all the professions, and all the stations of life find representation. With a total of perhaps 45,000 members. The following are the principal clubs, with the cost of ground and construction: Army and Navy Club, George's street, St. James, Square, 1,450 members, £100,000; the Conservative Club, St. James street, 1,500 members, £81,000; Garrick Club, King street, Covent Garden, 500 members, £25,000; Junior United States Service Club, corner of Charles and Regent streets, 1,500 members, £75,000; Oxford and Cambridge Club, Pall Mall, 1,200 members, £100,000; Reform Club, 1,400 members, £120,000; the Club, Pall Mall East, 500 members, £20,000; Wyndham Club, St. James Square, 600 members, £30,000; Westminster, Albermarle street, 560 members, £15,000; Pall Mall, 500 members, £60,000; Carlton, Pall Mall, 800 members, £10,000; Guards Hall, Pall Mall, 500 members, £40,000; Oriental, Hanover square, 230 members, £20,000; Travellers, Pall Mall, 700 members, £30,000; the Club, Grosvenor street, 1,000 members, £25,000; United Service Club, Pall Mall, 1,500 members, £70,000; White's Club, St. James street, 550 members, £20,000; Portico, St. James street, 500 members, £15,000; Cavendish Club, 207 Regent street, 500 members, £15,000; and Civil Service Club, 86 St. James street, 1,000 members, £45,000.

Each member is elected by ballot, and pays an entrance fee of £10, and afterwards a regular annual subscription, which varies, like the entrance fees, in different clubs. Thus, in the Athenaeum, the entrance fee is £20 (about \$30), and the annual subscription £2.50 (\$3.75). When clubs were first started they were regarded with much hostility as being most antagonistic to domestic life, and the ladies displayed an intense spirit against them. The clubs, however, survived and flourished under their enmity, and it was found that they discouraged coarse drunkenness, the prevalent vice of Englishmen; encouraged social intercourse between the members, and refined the manners of the members, constituted courts of honor, and tended most materially to the manufacture of gentlemen.

The London clubs are private hotels, on a small scale, and are furnished with every convenience, whether breakfast, dinner, supper, or wine, are furnished to him at the market cost price, all other expenses being defrayed from the annual subscription. For a few pounds a year, advantages are to be had, which no incomes but the most ample could procure. The Athenaeum, which consists of twelve hundred members, can be taken as a good example of the rest. Among the members can be reckoned a large proportion of the most eminent persons in England—civil, military, ecclesiastical, peers, spiritual and temporal, commoners, men of the learned professions, those connected with the sciences, artists, and commerce, as well as the distinguished who do not belong to any particular class, and who have nothing to do but live on their incomes, and whose families and friends are furnished to him at the market cost price, all other expenses being defrayed from the annual subscription. GEORGE M. THOMAS does not intend to make his appearance in the Blue Grass during the canvass, and published his speech in order that our readers may see exactly what he has to say for himself. The only part of his speech relevant to the issues now before the people in his exhortation to the old Union Democrats of 1861 to look over the Radical outrages because they have been committed and are things of the past. We do not know how we could better reply to the argument than by copying the following response of Mr. Beck to a similar argument by his Radical opponent in the Lexington District. Mr. Beck said:

When I expose the outrages committed by his party leaders—for I do not hold the masses who have merely followed blindly on responsible—Mr. Brown tries to dispose of the matter very cavalierly by saying all these things are done, and admits that they are all wrong—all as bad as you say they are—you can't help yourself and what is the use of talking about it? He fails to comprehend, or hopes the people will overlook, the fact that the same party leaders whose conduct he indorses, and whose past legislation he wrote to appropriate money and pass laws to carry out and enforce, no matter how outrageous he may have regarded them, are now before the people giving an account of their stewardship, and asking a new lease of power, so as still.

THEY TO PERFECT AND CONSOLIDATE the system they have inaugurated, and carried to its present point. Surely it is legitimate. It is certainly the course any of you would pursue if an agent to whom you had intrusted the management of your estate, under a written power of attorney and contract, should ask to be still further continued in his place; you would determine whether to trust him in the future by his management in the past, and if, on a careful examination, you found that he had not only violated all his covenants and disregarded all your orders, but had managed your affairs so as to impoverish you and enrich himself at your expense, you would drive him from your presence with the aid of the law of your country, if he was to tell you there was no use in bringing up his past misdeeds, that your time had been cut, sold, and the money spent your stock driven off, and its proceeds gone, the gamblers and the whisky shops had got them, and you were not wasting time by talking about bygones. I know no other way of determining the fitness of a man or a party for place, than to show what he has done and is doing in the matter about which he proposes to continue.

IF MY AGENT CHEATS ME ONCE it is his fault; if he does it a second time after I find him out, it is mine, as I had no business keeping him. The plea that we cannot undo the wrong done, and, therefore, ought not to expose them, is simply silly, when we consider that the perpetrators of these crimes are asking again to be employed, and do not only do not promise an amendment in future, but base their claims to future confidence on the very conduct which has driven them out of the pocket book and hold it in spite of me, spend the money and laugh at me; but when he asks me to put my money in his hands afterwards to take care of, and manage for me, I have a right to give his past conduct as a reason for refusing to do so, and I will hardly be stopped by his telling me that it is no use, as the money is all gone, and talking his former thefts as foolishness. As you perceive by Mr. Brown's speech, the present Radical party arrogate to themselves that they are.

THE ORIGINAL LOYAL UNION PARTY an assumption as unfounded as were the claims of Danion, Marat, and Robespierre in the last and worst days of the French revolution after they had driven the king and sent to the guillotine all the law and order-loving Republicans who had aided in detroning Louis XVI. As now organized, the Radicals are but the followers of Stevens and Sumner, Butler and Schenck, with no principle, but their will, no law but their orders and teachings; while Grant is watching the growing popular disgust and discontent, making their infamous laws doubly odious by rigidly enforcing them, ready to take advantage of anything that will concentrate power and authority in himself, and secure his re-election. I don't know that he hopes to play the role of Cromwell or Napoleon; but he keeps his forces well in hand, and his lieutenants, Sherman and Porter, are ever ready to execute his orders.

THE REVOLUTION IS PROGRESSING with rapid strides. What has become of the principles of the famous resolution of July 21, 1861, adopted almost unanimously by both Houses of Congress? You may have forgotten it, let me remind you.

"That in this National emergency Congress banishing all feeling of mere passion and resentment, will recollect only its duty to the whole country; that they have not waded on our part in spirit of oppression, nor for any purpose of conquest or subjugation, nor purpose of overthrowing or interfering with the rights or established institutions of these States, but to defend and maintain the supremacy of the Constitution, and to preserve the Union with all the dignity, equality and rights of the several States unimpaired, that as soon as these objects are accomplished, the war ought to cease."

IT IS THROWN ASIDE, FORGOTTEN, absorbed in the sentiment of Mr. Brown in his speech at Lexington the other night, as deliberately written out by himself and published. While speaking of the forcible occupation of Kentucky by General Breckinridge said: "As the commander of a victorious army he had followed the lessons of the past experience of mankind; he presented his terms and subjected Kentucky. We did the same in the South. As Napoleon said to the Algerines: 'We are the conquerors because we are strongest; we have a right to be conquerors because we are the more civilized.'"

THAT WAS HIS ANSWER to my attacks on the Radical reconstruction laws, whereby civil governments were overthrown and military despotism established over the Southern States, with their white men disfranchised and the ballot put in the hands of the negroes, and they driven to the polls like droves of mules, and forced to vote for Radical carpet-baggers for Congress who were furnished to order from Maine, Massachusetts, Vermont and elsewhere—laws passed in 1867, two years after the war closed, and not to any one act done while war was flagrant—and you will understand what the Radical programme and policy are. We, the Radicals, are the conquerors, we are more civilized, you must obey us, our policy, our schemes, our right to hold office and retain power.

TO ENRICH OURSELVES. Until that is done, you shall have no rights, no governments, no security for life, liberty, or property; all our past professions were only stratagems, might makes right, and we have the might. Mr. Brown truly represented his party in this speech. I believe but few men in Kentucky, outside of those who expect to hold Federal office, will sustain or endorse it. I know of such sentiments and purposes were now avowed before, during, or at the close of the war, no man in Kentucky, not even Mr. Brown, would have sustained them.

It is because our sentiments are now avowed before, during, or at the close of the war, no man in Kentucky, not even Mr. Brown, would have sustained them.

IT IS FOR THAT CAUSE that New York gave us 80,000 majority last spring that we carried Connecticut an Oregon, that in August last North Carolina and Tennessee wheeled into line; that even Missouri is making Mercantile efforts to burst her shackles; that last week we carried Pennsylvania by 5,000 majority, and elected half the Congressional delegation in spite of the Philadelphia frauds and the negro vote; that we elected our whole State ticket in Indiana by 2,500 majority, and five out of six of the eleven Congressional delegates in that State; that in Ohio, we only lost that State by about 15,000.
